EXPERIENCE

KPMG Africa, Lagos — *Intern in Digital Factory*

November 2024 – April 2025

- Had first-hand experience with many traditional, and collaborative software development techniques.
- Learned new skills, testing techniques and troubleshooting best practices.
- Analysed several live code-bases, and provided detailed and clear documentation on them. I also carried out thorough end-to-end testing while performing maintenance.
- Tasked with integrating several types of functionality into software applications, such as voice-calling and queue management systems.
- Adapted to foreign demands outside my initial skill set, and grew to contribute to code I had hardly used, such as Dart and Flutter.
- Involved in several client-facing operations, such as meetings and software demonstrations.

IBM, Nottingham — *Student / Developer*

September 2022 – May 2023

- Made a formal presentation expressing my group's interest in working on a project with IBM and won their favour among peers in our course.
- Collaborated on building interactive learning experiences leveraging Unity' technology.

Self-Employed , *Mobile Application Developer*

Current

- Working on various projects / models to release onto the app store in the near future. Contact for more details if interested.
- Full-stack social media apps.
- Small single purpose applications i.e local password manager.

SKILLS

C, C++

Javascript

SQL / Postgresql

Client communication

Back-end development

Front-end development

Web application development

Software debugging

Java/Spring Boot

RESTful API integration

Knowledge of data structures

Testing and maintenance

Mobile application development

GIT

Team player

Ready to adapt

React / React Native

C#/.Net

Android

SKILLS

- Olatunde Daranijo - **Manager (KPMG)**

EDUCATION

University Of Nottingham, Nottingham — *Computer Science With AI, BSC Hons*

September 2021 - May 2024

Degree - 2:1

Coursework - Autonomous Agents in Chess

Mill Hill County High School, London — *A-Levels*

September 2019 - June 2021

Maths - A / Chemistry - A / Computer Science - A.

HOBBIES AND INTERESTS

- Brazilian Jiu-jitsu for two years. Managed to compete a few times before getting injured.
- Football has been my lifelong sport.
- Calisthenics is my main form of exercise that I love.
- Hiking and scrambling.
- Traveling
